Join us on our next Music Adventure! Every day we will explore a new style of music from around the world, discovering the places, people, and cultures that created it. We'll dive deep into the musical elements which make each style so unique.

- Kids learn the foundations of rhythm, melody, and musical notation
- Each day we feature a unique artist from around the world
- We offer group instruction in a variety of musical instruments
- We're an active program with lots of dance and outdoor playground time
- We use art and theater games to facilitate musical expression

Program directors Valentina Fler (Manhattan School of Music) and Benjamin Covey (University of Toronto) are experienced music instructors who are dedicated to passing on the knowledge and joy of music to the next generation. As professional musicians and soloists, they have performed at renowned venues including San Francisco Opera and Carnegie Hall.
